

## User Guide

The goal of this game is to survive as long as possible on a space station with waves of Daleks attacking. You start with a laser gun and you shoot the incoming Daleks, while avoiding their attacks.

You can move with WASD and you move the camera with the mouse. Holding down Left Click fires the weapon.

Below is an image of a Dalek shooting at the player. In the bottom left corner there is the player health bar, and in the top right corner there is a score counter to keep track of your kills.

This image shows the TARDIS. Entering the TARDIS will teleport the player to a different part of the space station.
